

## WEBINAR

EUROPEAN  
PUBLIC HEALTH  
WEEK

### MONITORING COVID-19 RELATED CHANGES IN MENTAL HEALTH IN EUROPE

Thursday 19 May 2022  
12:30 - 13:30 CET

#### PROGRAMME

In the framework of the PHIRI (Population Health Information Research Infrastructure) project, different European countries are conducting research through a use-case on the COVID-19 related changes in population mental health, analysing register data. This webinar, addressed to a wide audience of researchers, stakeholders and decision makers, will present the rationale, implementation process and results of the use-case, as well as the added value of the federated approach followed in PHIRI by bringing together data from different European countries.

This webinar is organised by the following PHIRI partners:

- Instituto de Salud Carlos III (ISCIII, Spain);
- Instituto Aragonés de Ciencias de la Salud (IACS, Spain);
- Robert Koch Institute (RKI, Germany);
- Gesundheit Österreich GmbH (GÖG, Austria);
- Swansea University (SU, United Kingdom).
