Cross-agency collaboration

- A collaborative project between ECDC and the Joint Research Centre of the European Commission (JRC) since may 2020
- Data collection:
 - ECDC from March 2020 to June 2021
 - University of Crete (external contractor) since July 2021
- Data validation:
 - ECDC
- Dissemination of the database:
 - JRC, through RMD web page
 - ECDC, through weekly reports (with related data downloadable)

Why the ECDC-JRC Response Measure Database?

Measures coded through a 3-level hierarchy:

Level 1 categories:

- Case management & quarantine
- Ensuring treatment capacity
- General
- Hygiene & safety measures
- Internal travel
- International travel
- Physical distancing

			Categories
Internal travel 	Other	Not applicable	NPI related to internal travel which do fit within other sub-levels.
	Quarantine for internal travellers	Not applicable	Implementation of quarantine for individual returning from abroad (provide the list of country in the note).
	Travel advice	Not applicable	Travel advice related to COVID-19 within the concerned country (add the list of regions in the note).
	Travel restrictions	Cordon sanitaire Other	Implementation of a cordon sanitaire (quarantines an area during an infectious disease outbreak). Other travel restrictions not covered by the other categories.
International travel 	Ban for certain countries	Not applicable	International travel ban for the concerned country for abroad travel (add the country name in the note).
	Border screening	Other PCR/rapid antigen testing Temperature screening	Implementation of border screening at port of entry for travellers coming from abroad (add the list of regions in the note). Implementation of PCR or rapid antigen test screening at port of entry for travellers coming from abroad (add the list of regions in the note). Can be done before departure or at arrival. Implementation of temperature check at port of entry for travellers coming from abroad (add the list of regions in the note).
	Case reporting aboard conveyances	Not applicable	COVID-19 case reporting aboard any type of conveyances (boat, flight, etc.).
	Other	Not applicable	Other international travel measures which do fit within other sub-levels.
	Quarantine for international travellers	Not applicable	Specific quarantine for international travellers coming from abroad (add the country name in the note).
	Total border closure	Not applicable	Specific border closure (add the country name in the note).
	Travel advice	Not applicable	
Physical distancing 	Closure of educational institutions	Daycare nursery Higher Education Other Primary School Secondary School	Closure of day nursery (where children who are too young to go to school can be left all day while their parents are at work, maximum age can vary across EU/EEA countries). Closure of university or third-level educational institutions (= third-level or postsecondary education following the completion of secondary school). International travel advice for the concerned country for abroad travel (add the country name in the note). Closure of primary school (usually including the first three grades of elementary school). Closure of secondary school (usually for pupils between the ages of 11-12 and 17-18).
	Closure of public spaces	Entertainment venues Gyms sports centres Hotels other accommodation Non essential shops Other Place of worship Restaurants cafes	Closure of public entertainment venues (for instance: arena, concert hall, theatre, entertainment park). Closure of sport centres of any kind. Closure of hotels or accommodation. Closure of non-essential shops (! Definition can vary from countries to countries). Closure of other public places. Closure of place of worship. Closure of restaurants or cafes.
	Closure of public transport	Not applicable	Closure of public transport (all type).
	Public gathering restriction	Indoor over 100 Indoor over 1000 Indoor over 50 Indoor over 500	Any measure or legislation which limits participation or attendance to a public event between 51 and 100 participants. Any measure or legislation which limits participation or attendance to a public event between 501 and 1000 participants. Any measure or legislation which limits participation or attendance to a public event between 31 and 50 participants. Any measure or legislation which limits participation or attendance to a public event between 101 and 500 participants.

From policies to response measures

Every resident must stay at his/her place of residence from 20:00 to 5:00 in the period from 21 October to 14 November

Response measure - Level 1	Response measure - Level 2	Response measure - Level 3	Implementation	Status
Physical distancing	Stay at home orders	Not applicable	Partial	Mandatory

The study in universities is organised remotely until 14 November 2021. On 15 November persons with a vaccination or recovery certificate resume in-person studies

Response measure - Level 1	Response measure - Level 2	Response measure - Level 3	Implementation	Status
Physical distancing	Closure of educational institutions	Higher Education	Full	Mandatory

Collecting NPIs in response to a large-scale pandemic: lessons learned and future outlooks

event

ECDC

More information on this event will be published soon.

Date: 17 November 2021

Time: 17.30- 18.30 CET

Type: open event for all ESCAIDE registered participants.

International events

The ECDC-JRC Response Measure Database

Global Health Security Conference 2022

28 June - 1 July 2022

Convention & Exhibition Centre, Singapore

EHMA
European Health Management Association

EHMA 2022

**FROM PEOPLE TO SYSTEMS:
LEADERSHIP FOR A SUSTAINABLE FUTURE**

15-17 June 2022
Brussels, Belgium

Advances and challenges in pan-European health information systems during the COVID-19 pandemic

NPI evaluations

- Part of the *COVID-19 lessons learnt* project in ECDC
- Matched with literature reviews on NPI (cost-)effectiveness
 1. NPI effectiveness in reducing contact patterns
 - Developed by ECDC using 2020 and 2021 data
 2. EU experiences in improving adherence to NPIs
 - Partly addressed through an ECDC consultation in June 2022
 3. NPI societal impact
 - Collaboration with Eurofound and possibly other EU agencies
 4. NPI economic analysis
 - Direct health costs VS indirect costs on economy
 - ECDC open to collaborations
